DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 22, 2003 has been entered.

Response to Amendment

The objection under 35 U.S.C. 132 to the amendment filed March 3, 2003 because it introduces new matter into the disclosure is withdrawn in view of applicants' amendment.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-5 and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over applicants' disclosure on page 1, line 13 through page 2, line 16 of the specification for reasons of record.

Claims 1-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nieman et al, 4,163,827 in view of applicants' disclosure on page 1, line 13 through page 2, line 16 of the specification, for reasons of record.

Claims 8-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nieman, '827 in view of applicants' disclosure on page 1, line 13 through page 2, line 16 of the specification, further in view of King et al, 6,346,135 B1, for reasons of record.

Applicant cannot rely upon the foreign priority papers to overcome this rejection because a translation of said papers has not been made of record in accordance with 37 CFR 1.55. See MPEP § 201.15.

The Declaration under 37 CFR 1.132 filed September 22, 2003 is insufficient to overcome the rejection of claims 1-15 based upon applicants' admission in the specification as set forth in the last Office action because: a translation of the priority document is required.

Response to Arguments

Applicant's arguments filed September 22, 2003 have been fully considered but they are not persuasive. Applicants' arguments are based upon the 132 Declaration, and that in view of said Declaration, the admission on page 1, line 13 through page 2, line 16 of the specification cannot be used as prior art, since this disclosure represents the works and invention of the present inventors.

In this concern, the 132 Declaration has been found to be insufficient to overcome the rejection in the absence of a verified English language translation of the priority document.

No claims have been allowed.
